Dear Mr. Scott:

Your Application submitted to the U.S. Environmental Protection Agency (EPA) Region 8 Ground Water Program Office, for an Underground Injection Control (UIC) Program permit for the above referenced well or project area has been received. Under these regulations, EPA has determined that the contents of a permit application are present, but has made no determination concerning the technical adequacy of the application.

Pursuant to 40 CFR §124.6, the Director will prepare a draft decision to either issue a permit or deny the permit application. EPA will issue Public Notice of this decision. You will be notified by letter regarding publication of the public notice for the 30-day comment period and the opportunity for a public hearing. Following closure of the public comment period, the Director will address public comments and issue a final UIC permit decision.
